

February 29, 2012

Hon. Shoshana M. Grove  
Secretary  
Postal Regulatory Commission  
901 New York Avenue NW, Suite 200  
Washington, DC 20268-0001

Dear Ms. Grove:

This transmits the enclosed copy of the Postal Service's progress report regarding the participation rates, compliance, and data yield of bulk First-Class Mail and Standard Mail customers using Full-Service Intelligent Mail. This responds to the requirement in the Commission's FY2010 Annual Compliance Determination Report that the Postal Service furnish monthly reports of such information.

Thank you for your consideration of this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Calamoneri", with a long horizontal flourish extending to the right.

Kevin A. Calamoneri

Enclosure

**Monthly Progress Report on Full-Service Intelligent Mail Participation and Compliance by Commercial First-Class Mail and Standard Mail Customers  
(February 29, 2012)**

The Postal Service previously updated the Commission on the progress of Full-Service Intelligent Mail participation and certification on January 31, 2012.

Between January 1 and February 17, 2012, the Postal Service measured over 1.9 billion First-Class Mail items from 629 active Full Service Intelligent Mail customers. Measured First-Class Mail items with an overnight service standard originated in 66 districts, those with a two-day service standard originated in 60 districts, and those with a three-to-five-day service standard originated in 60 districts. For Standard Mail, there were over 1.4 billion items measured with origin data from all districts for Destination Entry letters and flats, 54 districts for End-to-End letters, and 37 districts for End-to-End Flats. There were over 104 million pieces measured for Periodicals delivered between January 1 and February 17, originating from 65 districts. For Package Services Bound Printed Matter Flats there has been too little measurable volume to produce scores so far this quarter.
